

Hi, Ninjas!
Welcome
to class.

WHAT IS MONKEY NINJA?

Monkey Ninja is a brand new concept in the world of decentralized gaming. It's both action-packed and strategy-driven. It's part collectible NFT, part role play and part arcade gaming.

Monkey Ninja is a new breed of game. You are a member of the Monkey Ninja Army, a brigade of troops defending The Meta Dynasty from evil monkeys, dragons and other characters of the dark forces. With your NFT character and skills you can fight together with your friends to defeat the opposite team in this real time multiplayer game!

NFT UTILITY

Monkey Ninjas are the tokenized representations of characters, weapons, skills and other properties you can use to play the game. Each character has their own stats, which differ from each other in unique ways that make them a fun addition to the game. Unlike regular NFTs, these game items have stats that players can interact with by actually doing something in game. These would include, health, hp, armour, boosts, token id, token address and more!

The Meta Dynasty is a 3D virtual world full of mysterious Ninjas and dangerous enemies. Some live in villages located all over the Meta Realm, while others will be scattered throughout the Dynasty at various monasteries that are called "Mounts". The Meta Realm is a place where you will get to interact with characters and other players through virtual means such as keyboards and mice. You can experience this on the VR Headsets, but for now it is just accessible on your browser. As you level up in the game you will receive items (NFT Tokens) that you can use to cover your avatar, purchase buffs to increase your Health, HP, etc... There will also be an in game chat room integrated with the NFT utility that runs Meta Dynasty so that you can chat with all of your fellow players.

TOKENOMICS

OKANE COIN

TOTAL SUPPLY

1,000,000,000,000

What is the Okane Coin? It's the currency used by all of the Monkey Ninjas in the Meta Dynasty. All players carry their own stash of Okane coins, which can be bought and sold, used to purchase weapons, skins, and other in-game items. We will have a secure swap and transfer system with additional experimental features as time goes on.

In Conclusion

Play as a monkey ninja warrior. Go on quests and missions solo or with your clan, summoned by the gods. Create your own custom avatar, craft tools and weapons, fight monsters and dragons, interact with other users, be who ever you want. Just remember the ninja legend: "As you are now, so once was I; as I am now so will you be – Prepare for your future"
